PROJECTS

E-COMMERCE WEBSITE

<https://hekto-marketplace-builder.vercel.app>

A fully functional e-commerce platform built with Next.js and Sanity, featuring a admin dashboard. Key functionalities include product filtering, add-to-cart, checkout, and Stripe payment integration. Ensured a seamless user experience with a responsive UI using Tailwind CSS and deployed on Vercel.

URL SHORTENER (MERN STACK)

<https://snappin.vercel.app/>

Developed SnapPin, a full-stack URL shortener using Next.js with NextAuth for secure authentication. Designed with Tailwind CSS for a responsive UI, it features custom short URLs, click analytics, and a user dashboard to manage URLs. Deployed on Vercel.

ENROLLED COURSES

CERTIFIED IN CLOUD GENAI, WEB3, AND METAVERSE

Governor House
2024 – 2026

PYTHON PROGRAMMING

NED University
1/2025 – 3/2025
